PROJECTS

Ocean Driven | <https://github.com/mayamckinney/ocean-driven> | <https://ocean-driven.herokuapp.com/>

- A full stack MERN application in which users can list their boat for rent or book an exciting water excursion with others.
- As one of the UI developers, I designed much of this website's layout, integrated front-end components with the server-side implementation, and had a firm understanding of back-end implementation.
- JavaScript, React, Node.js, GraphQL, Apollo Client/Server, Chakra UI

No Budge Budget Tracker | <https://github.com/ggorosave/No-Budge-Budget-Tracker> | <https://no-budge.herokuapp.com/>

- Track your finances with ease - No Budge's full-stack app uses advanced technologies, a database, and a clean interface to help you take control of your money.
- I lead much of the development of this application. I used Bootstrap and custom CSS to design the app, coded most of the front-end, supervised backend implementation, and organized the app using the MVC architecture.
- Bootstrap, CSS, Handlebars.js, Node.js, Express.js, Express-Session, MySQL, Sequelize, Bcrypt, Dotenv, Charts.js

Vocabulary Quiz Game | https://github.com/ggorosave/Quiz_Game | https://ggorosave.github.io/Quiz_Game/

- Test your knowledge with this fast-paced quiz game - answer multiple-choice questions within a time limit and earn points for correct answers. See top scores.
- As the only developer on this project, I designed and coded everything and plan on further development in the future using more contemporary and advanced technologies.
- HTML 5, CSS3, JavaScript

EXPERIENCE
